

Binary Group Prospers During Economic Down Slope

Firm recognized as fast growing amongst competition – locally and nationally

Arlington, VA, Oct 31, 2009 – Binary Group is steadfast and achieving industry recognition amidst a tough economy and the changing tide of government contracting. Ranked by the *Washington Technology* magazine, Binary placed #11 among competing 8a contractors and was also part of the magazine's Fast 50 for fifth consecutive year. This industry recognition coincides with *Inc.* magazine's announcement of Binary Group being part of the Inc 5000.

"Binary's success is not by accident, it happens on a day-to-day basis when Binarians engaged with our customers and work hard to make great things happen. I am elated our success continues to be recognized – the credit goes to my team!" said Rose Wang, Binary Group's CEO.

Binary continues to diversify and expand its customer footprint. They recently were awarded new contracts within the Department of Defense's Office of Economic Adjustment and the Army's Financial Management School.

About Binary Group

Headquartered in Arlington, Va., Binary Group Inc. serves mission-driven leaders with enterprise-level responsibility in information technology by providing best value, strategic IT program support services that are free of organizational conflict of interest (OCI). Binary delivers strategy, architecture, governance, engineering design, and related management and planning to federal government. Among the customers are: U.S. Army, U.S. Navy, U.S. Air Force, Office of Secretary of Defense, Army Corps of Engineers, and Defense Information Systems Agency (DISA). Binary is employee and customer-centric and is a great place to work and play.
